Professional Summary

Mathematics instructor, curriculum developer, and aerospace instructor with extensive experience teaching secondary and university-level mathematics across classroom, remote, and individualized learning environments. Skilled in designing rigorous instructional materials, assessments, and personalized learning plans that support diverse student populations ranging from elementary learners to advanced university students. Experienced in developing curriculum for subjects including algebra, calculus, linear algebra, and complex analysis while translating abstract mathematical concepts into accessible and engaging instruction. Proven ability to support student success through structured pedagogy, academic mentorship, and competition preparation.

Work Experience

Aerospace Instructor, Spherion, January 2026 - Present

- Deliver technical training in aerospace manufacturing and operational procedures within a regulated safety-critical environment.
- Facilitate classroom and hands-on instruction supporting workforce development for aviation personnel.
- Ensure training aligns with established safety, quality, and operational compliance standards.
- Collaborate with training teams and operational stakeholders to support effective skill development.
- Adapt instructional strategies to meet varying learner experience levels.
- Support training initiatives designed to improve workforce competency and operational readiness.

College Mathematics Instructor, Digipen Institute of Technology, May 2026 - Present

- Teach courses for the Mathematics Department at Digipen Institute of Technology.
- Develop lectures, assignments, examinations, and grading frameworks for college-level mathematics
- Maintain a consistent schedule of office hours.
- Manage student questions and concerns regarding the classes that I am teaching.

Mathematics Instructor, WA Prep Learning Center, August 2022 - May 2026

- Participated in curriculum development and instructional design of individualized lesson plans for students of WA Prep Learning Center.
- Taught small classes of students ranging from 3rd grade through 12th grade in various mathematics and mathematics-based science courses.
- Provided tutoring services to clients that pertain to SAT exam preparation, college course preparation, and general education assistance in AP/IB STEM courses.
- Addressed individual client concerns related to lesson plans developed by WA Prep Learning Center.

Mathematics Instructor, Johns Hopkins University's CTY Program, August 2023 - January 2026

- Hosted office hours and meetings to assist students in their independent study of higher level mathematics subjects, including multivariable calculus, linear algebra, and complex analysis.
- Helped students prepare for high school mathematics competitions such as the AMC 8 and AMC 10 exams.

- Addressed student concerns, parent questions, and other administrative matters related to implementation of independently paced mathematics courses for the CTY program via email and Zoom.

Mathematics Instructor, Western Washington University Math Department, December 2019 - December 2021

- Taught numerous courses for the Mathematics Department at Western Washington University.
- Developed lectures, assignments, examinations, and grading frameworks for university mathematics courses.
- Maintained a consistent schedule of office hours.
- Managed student questions and concerns regarding the classes that I was teaching.
- Graded examinations and provided leadership to assigned homework graders.
- Designed asynchronous course content for remote mathematics instruction during the 2020–2021 academic year.

Mathematics Tutor, Varsity Tutors, July 2019 - Present

- Provide tutoring services to clients in subjects of various mathematics courses, including pre-algebra, algebra, pre-calculus, calculus, linear algebra, differential equations, real analysis, complex analysis, graph theory, and abstract algebra.

Skills

- Secondary & University Mathematics Instruction
- Advanced Mathematics Teaching (Calculus, Linear Algebra, Complex Analysis)
- Small Group & Individualized Instruction
- Remote & Asynchronous Learning Delivery
- Mathematics Curriculum Design
- Instructional Material Development
- Mathematics Assessment Construction
- Individualized Lesson Planning
- Educational Content Development
- STEM Pedagogical Practices
- Differentiated Instruction
- Academic Mentorship
- Competition Preparation (AMC 8 / AMC 10)
- Analytical Problem-Solving
- Educational Program Coordination
- Cross-Functional Collaboration
- Technical Communication

Education

M.S. in Mathematics - Western Washington University - 2019

B.A. in Mathematics - University of Washington - 2017
